MATIAS TUPINAMBA

713-732-1662 | matiast06@tamu.edu | linkedin.com/in/matias-tupinamba | github.com/matiastup

Education

Texas A&M University — College Station, TX
Bachelor of Science in Electrical Engineering, Minor in Mathematics – GPA: 4.0 — *Aug. 2025 – May 2029*

Projects

Mini Haptic Steering Wheel Controller | *Python, C++, Arduino, CAD* — Jan. 2026

- Winner of best beginner hardware hack @ TAMUHACK2026
- Built custom force-feedback system using Moteus BLDC controller, transforming live data into physical feedback
- Implemented cross device communication between racing simulator, steering controller, and force feedback device
- Utilized Fusion360 to construct the controller's base and housing to ensure compliance within size constraints

SPORA | *Project Management, Product Design* — Jan. 2026 – Feb. 2026

- Led engineering design competition project from concept to final presentation, resulting in a top 5 placement
- Acted as project's CEO and COO, aligning team responsibilities and keeping the project on schedule
- Developed and collaborated on a project plan which included product design, cost estimates, and presentation

Experience

Lead Coding Instructor — June 2026 – Aug. 2026
iCode STEAM Academy — *Katy, TX*

- Designed and delivered an AI engineering curriculum covering machine learning, APIs, and generative AI
- Developed full-stack web applications with students to provide hands on experience with AI and programming
- Mentored students in Python, JavaScript programming fundamentals, and website design

Society of Hispanic Professional Engineers, SHPE — Aug. 2025 – Present
Texas A&M University — Jones STEM Club Representative — *College Station, TX*

- Coordinate and execute elementary school volunteering program, designing interactive activities that translate STEM principles into engaging experiences for Jones Elementary School students
- Coordinate event logistics between TAMU SHPE and Jones Elementary School faculty to ensure well-run program
- Build relationships with local STEM educators and K-12 students while creating equal opportunity curriculum
- Participate in social and educational events to build a network with professional peers

Scouting America — Aug. 2024
Eagle Scout Project — *Katy, TX*

- Supervised Eagle Project with 10+ volunteers over 20+ service hours
- Designed and constructed Bat Boxes for Fort Bend County Parks & Recreation to improve park quality through natural pest control by preserving the bat population
- Planned, budgeted and coordinated with Ft. Bend County Parks over project location, spending and timing to coordinate volunteering event

Technical Skills

Programming: Python, C++, JavaScript, HTML/CSS
Technical: 3D Modeling & Printing, Blender, Arduino, CAD
Languages: Fluent in English & Portuguese, Intermediate Spanish
